U P W A R D

Wingspan growing on and on to climbing skywaves up and leave the ground
Smashing weed slowdowns of life determined to follow your feeling inside
When you´re flying faster on forward - when you´re touch the sky
Time to pick up pace rising upward with the wind alive

High degrees air paddle, grow on - Flying high above, far from the ground
Renewed feathers, resolve few worn ones - along willow fields, rivers upon the pond
Eyes glows red, adjusted in flight route bound - airwaves around the beak, just feel the plunge
Breaking the sound barrier, two seconds to count - Enter the dive, hear and feel the flapping sound

Refrain :
Upward with the wind alive - twisted circles cycling in the skies
Fill all flying powers into your life - feel the thrust, just feel the thrust
Endure the headwind, air currents shatter whole tides - ride on an inner wave, on an inner delight
Cloud sailing diving riding glide - you know the path by your inner guide

High degrees air paddle, grow on - Flying high above, far from the ground
Renewed feathers, resolve few worn ones - along willow fields, rivers upon the pond
Eyes glows red, adjusted in flight route bound - airwaves around the beak, just feel the plunge
Breaking the sound barrier, two seconds to count - enter the dive, hear and feel the flapping sound

When you´re flying faster on forward - when you´re touch the sky
Time to pick up pace rising upward with the wind alive

When you´re flying faster on forward - when you´re touch the sky
Time to pick up pace rising upward with the wind alive

Wingspan growing on and on…

L I F E J U M P

Land of life in a beaming grow, and where the time is an endless flow

Where the sun smashed leaning shadows, dancing in the air, let all clouds go

Let all lights flow, let all clouds go

You take a running start, preparing for a high leap, set focus on the flight, aimed all feed at speed

Faster, blazingly fast, horizon focusing view, let electric powered air gain in and surfing on the breeze

at a single blow

Riding high - jump into life

Taste the sky - a journey of air rise

Riding high - jump into life, glide, ride

Riding high - jump into life

Taste the sky - a journey of air rise

Riding high - jump into life, glide, ride

S M A S H I N G L E A F E S

Here is a time, for us today - preparing wings, now fly away
We can stay on the ground on another day - first we should save the whole world
Stable branches all the way - serve it to you on a rustic tray
More straight here than to get astray, there is a path of life

Let´s ride the dawning and the night - the guide is light by reddish dusk sunlight
The height outline - the speed short time declines
Ramp up this side - start dancing the air dive

Windblown clouds shine in the sky - forms widely outstretched wings alive
At dawn in storms of new daylight - the round will taking
The shadow is whiter in the bright - from ground it figures one clear sight
Wings rhythm in pulsating drive - this is the sound life

Tonight, we´re dancing through the sky - all waves splashed ride - with moving fireflies
Beside these lines, a rambling way to glide - fast set the flag of freedom to survive

Free the lines, free our rights - our minds
Free the lines – dancing in the sky
Free the lines, free our rights - our minds
Free the lines – dancing in the light

Skyride

Skyride, Skyride, in the air, free alive

Let your growl breaking through the sea - backlash speed, flying with the leaves
Numerous overcoming greet, let fidget knees and feet
Generate the same reaction on the other side, more than ever seek

Skyride, Skyride, in the air, free alive
Skyride, Skyride, breaking the sound barrier, split clouds in twice

Get your guide, cooling down the heat - fewer circles in the loop, glide all waves on peek
Sense flight path lane, pressure under your upper body reach
It allows you to float high above the ground and the sea

Like life, start life, skyride, skyride
Like life, start life, skyride skyride

Whip Jamboree

Now me lads be of good cheer
For the irish coast will soon draw near
In a few more days we´ll sight Cape Clear
Oh Jenny get your gold cake done

Whip jamboree, whip jamboree
Oh you pig-tailed sailor hanging down behind
Whip jamboree, whip jamboree,
Oh Jenny get your gold cake done

And now Cape Clear it is in sight
We’ll be off Holyhead by tomorrow night
And we’ll steer a course for the old Rock Light
Oh Jenny get your gold cake done

Now my boys we're off Holyhead
No more salt-beef or weevilly bread
One man in the chains for to heave the lead
Oh Jenny get your gold cake done

And now we're passing Fort Perch Rock
All hammocks lashed and chests all locked
We'll haul her into the Waterloo Dock
Oh Jenny get your gold cake done

Now my lads we're all in dock
We'll be off to Dan Lowrie's on the spot
And now we'll have a good roundabout
Oh Jenny get your gold cake done

Thoughts are free

Here, forever thoughts are free, who could ever really guess them
They fly past over the sea, and towards to heaven
No human can know them, no hunter can shoot them
This fact remains and heal: Forever thoughts are free

I think what I want, and what makes me happy
Everything happened in silence, more solid than flappy
My wish and desire can´t be denied by anyone higher
This fact remains and heal: Forever thoughts are free

I love life gaiety and wine, my girl here above me
You just have to like her, she's heavenly lovely
I am not alone on riding, fast enough to flying
My girl is with me: Forever thoughts are free

And if they lock me up in a dark dungeon
A complete waste of time, only pure nonsense
For my thoughts tear down the barriers
And walls splits into leaves: Forever thoughts are free

Therefore, I want to renounce worries forever
No longer plagued by hazy thoughts, clear-sighted in clever
We can deeply refill our spirit, by laughing, joking to steer it
And thinking by wind blowing leaves: Forever thoughts are free

Free Thrust

A long time where we´re airsailing this way - another cup of coffee today
Defend our free world by glowing eyerays - free forever
The life as we know it is threatened and may - clear reason sharp mind to finding a way
Watch out now that no one will lead us astray - free together

Wings in position to the sun - an ideal path to run
Later we´ll see what all what we´ve won - free thrust forever
Refill endurance condition on - set the run-up distance large enough
Refresh the air filled impulsive lung - free thrust forever

Sailing through the sky up again - past few years we have learned and now understand
Old aberrations have been blowing away - free forever
Impulsive meanings, views of life need to say - world's knowledge is pliable and fuse day by day
Naturally based on facts all the whole life will play – free thrust forever

Time to flow and time to defend - processes on earth that imperil freedom
It is not tricky to see to know, understand - break free forever
History shows sequence how it begins - the adjustment screws that influence both directions
Printed historic papers and all documents - helps mankind to stay free forever

It´s a fundamental importance, a kind of life breath - can´t and mustn´t be underestimated
The danger creeps up in quiet little steps - break free forever
Many will say that they should have known it before - it´s pulsating threatening way at this door
Nor can we determine the direction on shore - break free forever

Lightning

Running lights, in the night, growing force, set flight lines
Splashing growls, twisted tides, roaring winds lift us high
Almost as if floating through the storm - feels like recently reborn
Riding with the flash, tensioned guide - pulsating legs drives your ride

Guiding with the wind, run over - soil, gravel paths and hills, taking shine
Riding with the wind, swing in hover - the breeze directly floods your mind, all time

Accelerate even more
Getting more light, getting more light, getting more light, lightning
Lightning your side, lightning your ride, lightning your life, lightning

Now your feel drive in sky - legs begin to fly
Lost the ground and earth, lift up to the sky
